

HORTNET TRAINING PROGRAMME AT GOA ON 5TH & 6TH JULY 2012.

HORTNET Training Programme was held on 5th & 6th July 2012. Shri Rakesh Vardhan, TD & National Co-coordinator NHM Project and Shri Vinay Samson, NIC Hyderabad, imparted training on HORTNET Portal & Software. Shri Orlando Rodrigues, Dy. Director(Horticulture), Department of Agriculture, Govt. of Goa inaugurated the Training Programme on 5th July 2012. Thirty officials from State, District & Block level offices of the Department of Agriculture, Govt. of Goa and three NIC District Centre officials attended this Training Programme.

Shri Orlando Rodrigues, Dy. Director(Horticulture), Department of Agriculture, Govt. of Goa, in his inaugural address urged the participants to deliver the services through HORTNET in a best possible manner. He also encouraged the participants to attend the Training Programme with positive attitude so that HORTNET Project can be implemented in Goa at the earliest. He appreciated the efforts and contribution of NIC in achieving this goal.

Shri Olavio Fernandes, Asst. Director (Horticulture), Department of Agriculture, Govt. of Goa, in his address, highlighted the benefits of the Citizen Centric Services that would be provided through HORTNET.

Shri Rakesh Vardhan, Technical Director and National Project Director (Hort. Computerizations) described the objective of HORTNET and demonstrated its main features. He also informed that HORTNET is single sign-on Software with a complete horizontal and vertical integration with other schemes of Agriculture, Horticulture and Allied sectors with a common database on Farmers.

Shri N.R. Kulkarni DIO NIC South Goa described the ICT infrastructure availability at the District and State levels and assured full technical support to the implementation of HORTNET Project in the State of Goa .

The participants taken full interest in the hands on sessions and explored the Software by filing and processing the applications at taluka/district/state levels.

The Training Programme concluded with a positive step to implement the HORTNET Project in the State of Goa immediately.
